

SELF-PACED TRACK

Learn best practices and deepen your knowledge and skills to become an engineer in test automation.

OVERVIEW

This flexible training track is designed to be completely taken as a self-paced learning.

It is especially suitable for individuals and groups who need to fit their Tricentis Tosca learning around a busy schedule.

Our self-paced learning is comprised of numerous training resources, available when and where you need it. It includes videos, exercise books, case scenarios and much more.

Learn by example with step by step tutorials that guide you through new tasks from start to finish.

Master Tricentis Tosca by yourself with these on-demand resources at your fingertips!

TRAINING

The training course consists of 6 lessons, followed by 13 scenario-based challenges and a final grand scenario.

These training modules are different in scope and length and are designed to be taken successively in a specified order to build up your knowledge of test automation in Tricentis Tosca.

Once these 13 scenarios have been completed*, you will be certified as an Automation Engineer Level 1!

More information on the training modules can be found on page 2 of this data sheet.

** Online certification exam has been passed. It is required to take and pass assessments after each lesson and a final exam.*

SUMMARY

Upon completion of the training modules you will be certified as a Tricentis Automation Engineer Level 1.

What does this mean?

This means that you will be an automation expert, whose expertise will be required for advanced test automation challenges in your project.

Skills that will be enhanced include TBox and Classic steering, WIN32, AnyUI, UIA, Excel steering, PDF testing, image-based controls, Standard Modules, Aidpack Modules, updating TestCases, and using custom controls.

DELIVERY METHOD

- ▶ Self-paced learning
- ▶ Learning material is provided online

PACKAGE CONTENT

- ▶ 6 lesson modules incl. videos and assessments
- ▶ 13 scenario-based challenges
- ▶ 1 online final exam and certification

TARGET AUDIENCE

- ▶ Professionals who plan to become automation experts

SUITABILITY

- | | |
|---|---|
| <input type="checkbox"/> Test lead | <input checked="" type="checkbox"/> Tester |
| <input type="checkbox"/> Test analyst | <input checked="" type="checkbox"/> Test automation developer |
| <input checked="" type="checkbox"/> Test designer | <input type="checkbox"/> Test administrator |

PREREQUISITES

- ▶ Automation Specialist Level 2 certificate

DURATION

- ▶ Approx. 10-15 hours of self-paced learning (average)

LANGUAGE

- ▶ Training materials are in English
- ▶ Certification exam is in English

ENROLLMENT

- ▶ Purchase access online directly from Tricentis web shop

MINIMUM SYSTEM REQUIREMENTS

- ▶ HTML5 compatible browser
- ▶ PDF Viewer
- ▶ Broadband/ high-speed internet connection
- ▶ Network to support WebSockets Port 443, SSL
- ▶ Speakers or headphones

SELF-PACED TRACK

Learn best practices and deepen your knowledge and skills to become an engineer in test automation.
