

qTest® Insights Your Testing Just Got Smarter

qTest Insights is a complete reinvention of qTest reporting. Insights gives the testing team a self-service business intelligence tool to consolidate, manage and analyze all your testing data along with your integrated ALM issues.

Custom Dashboards

Your data, your way. Arrange and display charts and graphs exactly the way you want. Tabs let you create multiple dashboards for different projects or teams.

Smart Filtering

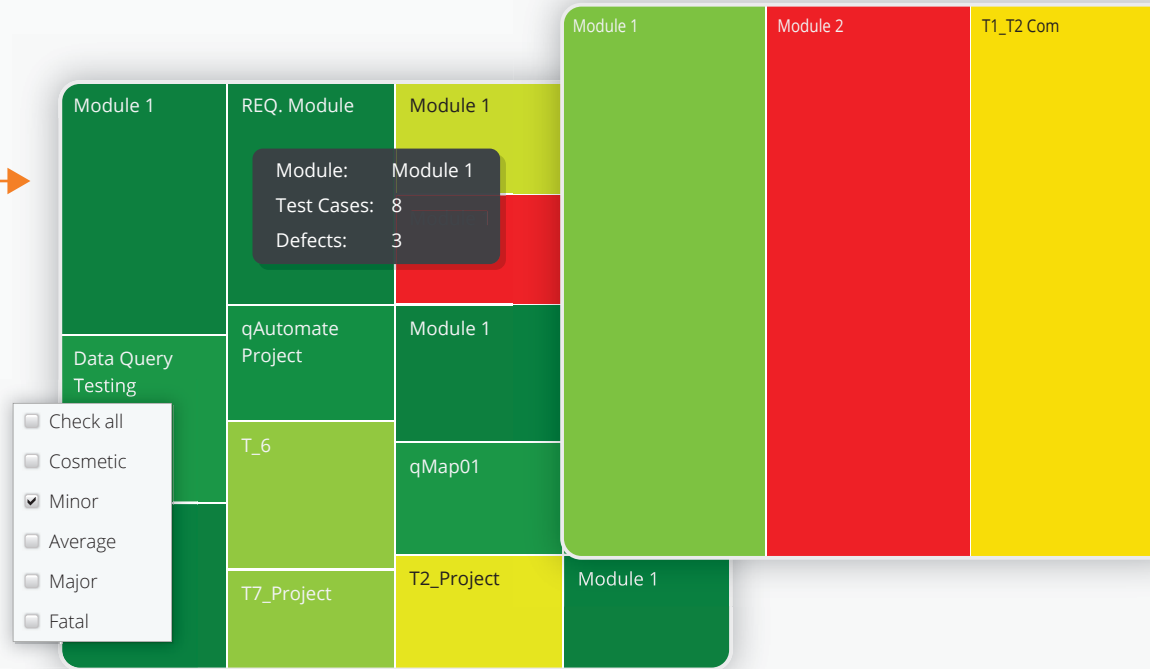

qTest Insights makes it easy to drill-down into the data that you want to see. Filter by project, release, date range and more.

Interactive Charts

Hover over charts to view specific data points. Zoom in and dynamically adjust the charts. Click on a chart to view and download the data.

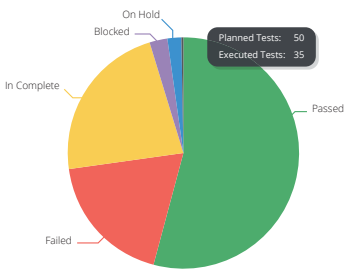

Visual Heat Maps

Visualize your data with interactive heat maps that help quickly identify where the issues are in the application. Then drill down to get more details.

Build Your Own Reports

In addition to the pre-built report templates, qTest Insights gives you the ability to build any kind of report you want, exactly the way you want it. Create pie charts, bar graphs, scatter plots and much more.
