## Course Recommended for:

**Extension Developer**

**Automation Specialist**

**Test Architect**

**Test Manager**

**Test Analyst**

## Course Outcome

Upon completion of Automation Specialist Level 1, you'll be able to use Tricentis Tosca and the Exploratory Testing Agent for exploratory testing

This course will teach you the skills required to set up and administrate exploratory testing sessions. You'll be able to perform exploratory tests and record interaction using screenshot or video. You'll also learn how to raise bugs to the development teams when defects are found.

## Course Outline

Introduction to Exploratory Testing

How to Administrate Exploratory Tests

Record and Edit a Scenario

Standalone Testing

Results Management
